and facilities enabling them to be aware and take advantage of University and its other facilities. It is also a kind of self-appraisal and audit of the functioning of each quarter of the year of each and every discipline of the University to monitor the growth, expansion and academics.

Efforts are required to be made to disseminate the appropriate information, scientific activities and progress in this direction. It also provides opportunity to inform people regarding the education facilities and the clinical facilities available in our hospital.

I thank all the staff, faculty and students for providing information and conducting various activities, both academic and cultural during this quarter.

I am sure, all constituents of the University will continue to work with the same enthusiasm in the next quarter of the year too.

It is a matter of great pleasure that Vol. 2 No.1-2 of the University's Newsletter is in your hands. The Newsletter is a catalogue of information and mouthpiece of the organization as to what has gone about in it during the period of its coverage. Through this publication, the University outreaches the people and provides information to them regarding our activities

About the University

Shree Guru Gobind Singh Tricentenary University was established in 2013 by Dashmesh Educational Charitable Trust with the avowed objective of spreading the message of Shree Guru Gobind Singh that "the highest service is rendered by spreading knowledge".

The foundation of SGT University rests on four pillars of rendering service, developing leadership, encouraging innovation and inculcating strong ethics. It is our commitment and vision to develop our students holistically—educating not only their minds but also their hearts—by developing strong morals, empathy and service before self. Imbued with these qualities, success would automatically follow them.

FACULTY OF MEDICINE & HEALTH SCIENCES

The Faculty of Medicine and Health Sciences was set up in 2010 as SGT Medical College, Hospital & Research Institute with the objective to offer medical education and research programmes and provide healthcare

services to the needy people in the surrounding areas at affordable cost. Besides MBBS, this Faculty offers M.Sc. (Medical) and Ph.D. programmes in all Pre & Para-clinical subjects. The Internship of the First Batch of MBBS students, admitted in the year 2010, took off from 01st January 2015. M.D. programmes in the clinical subjects are in pipeline.

The Faculty of Medicine & Health Sciences has a 580-bed multi-specialty Hospital attached to it for the hands-on training and skill development of the budding players in medical field. The hospital is very well-equipped with the most advanced facilities in the area and caters to the needs of rural and urban populace in and around Gurgaon. Highly qualified and experienced consultants in all specialities such as General Medicine, General Surgery, Paediatrics, Orthopaedics, General Gynaecology, ENT, Ophthalmology, Obstetrics & Medicine, Skin & VD, Psychiatry, Radio-diagnosis & Anaesthesiology man the hospital and provide best health services round the clock.

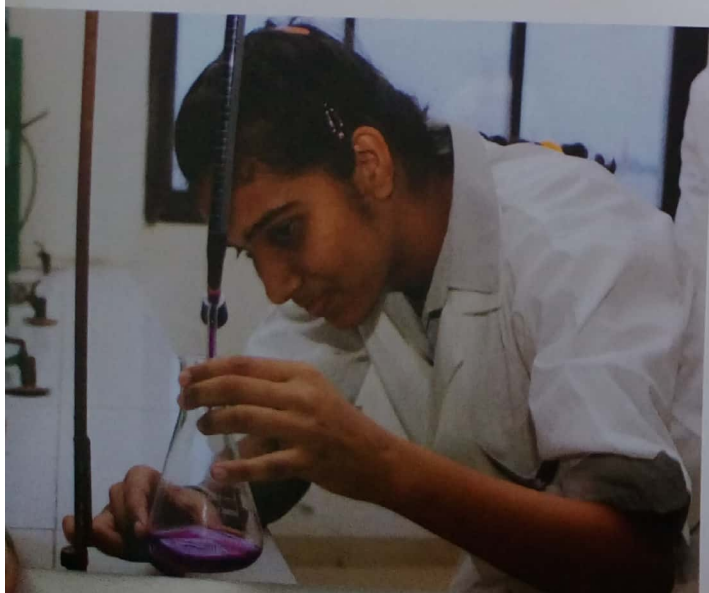

MD Programmes in Pre and Para Clinical Subjects

Consequent upon the assessment of the infrastructural facilities in terms of teaching and non-teaching staff, buildings, equipment and hospital, the Ministry of Health and Family Welfare, Govt. of India, on the recommendation of the Medical Council of India, has granted permission to the SGT University to start Doctor of Medicine programmes in seven disciplines—Anatomy, Physiology, Biochemistry, Pathology, Community Medicine, Microbiology and Forensic Medicine— w.e.f the 2014-15 session and in Pharmacology from 2015-16 session. Having completed first four years of MBBS successfully, the permission for starting M.D. courses is a milestone in the short history of the University.

Collaborations with Renowned Superspecialty Hospitals

The SGT University has decided to run graduate programmes in 'Sleep Disorder Technology' and 'Neuro-Physiology Technology'. The University has signed MoUs with Fortis Hospital and Artemis Health Sciences, Gurgaon. Both these hospitals provide cutting edge healthcare in India. Eminent doctors from these hospitals will collaborate with the University in designing the course curriculum, as well as in classroom teaching of these courses. At the end of the academic programme, the students will be placed at these hospitals for practical training under the supervision of the practicing Doctors. These tie-ups will provide opportunities to our students for cutting edge education and experiential learning in the real working environment for transforming them into market-ready assets.
