RESEARCH

Thesis- MDS Department of Orthodontics

Dr. Himanshu: Comparative Evaluation of pharyngeal airway volumes by Herbst appliance in class II patients using Cone beam Computed Tomography

Dr. Nishant Malik: Profiles of salivary biomarkers during conventional versus micro-osteoperforation assisted canine retraction

Dr. Ankit Gupta: A study of facial photographic analysis , proportional analysis and smile index using standardized facial photographs

Thesis- MDS Department of Conservative Dentistry

Dr. Apurva Goyal	A comparative evaluation of the anti-inflammatory potential of two final rinse irrigatnts during single visit endodontic therapy in patients suffering from acute irreversible pulpitis-an in vivo study.
Dr. Gagandeep kaur	To evaluate and compare influence of two dentin pretreatment agents on bond strength stability of etch and rinse adhesive to bleached dentin-an in vitro studyto evaluate and compare influence of two dentin pretreatment agents on bond .
Dr. Poorvi Saxena	To evaluate and compare efficiency of single vs multiple retreatment file system in removal of gutta percha within the rootacanal with and without ultrasonic activation.
Dr. Shikha Gautam	To evaluate and compare the effect of various antioxidants on the shear bond strength of composite resin to bleached enamel-an in vitro study.
Dr. Sushmita Chauhan	A cone beam computed tomographic evaluation of root canal morphology of mandibular premolars in haryana population-an in vitro study.

On-going Short Studies Department of Conservative Dentistry

Dr. Apurva Goyal- Guided Endodontics for teeth with calcific metamorphosis – A case series.

Dr. Anjali Dhull- Identification and characterization of chemical compound in different crude extract from leaves of neem

Dr. Armish Riyaz- A micro CT evaluation of non-instrumented canal areas with different enlargements performed b newer NiTi systems

Dr. Kriti Kapoor- Comparative evaluation of glide path preparation by rotary and reciprocating motion in mesial roots of mandibular molars- Microcomputed Tomographic study

Thesis- MDS Department of Periodontology

A Clinico-radiographic evaluation of regenerative efficacy of platelet rich fibrin with 1% of metformin gel in the treatment of Mandibular grade II furcation defects

Evaluation of interleukin 35 level in gingival crevicular fluid of chronic periodontitis patients following non surgical periodontal therapy(scaling and root planning)

Exploration of association between chronic periodontitis and sleep deprivation and evaluation of this inter relationship with stress hormone level(cortisol): A clinico-immunological study

Comparative evaluation of the clinical efficacy of chorion membrane with Demineralized Freeze Dried Bone Allograft (DFDBA) vis-à-vis amnion membrane with DFDBA for treating gingival recession defects

Comparative evaluation of dematerialized freeze-dried bone allograft with and without Choukroun's i-PRFTM in periodontal intrabony defects: A clinico radiographic study.

Thesis- MDS Department of Periodontology

Evaluation of the efficacy of xenogenic extracellular membrane to increase the thickness of keratinized tissue at the time of implant placement: A clinical study

To compare the efficacy of plasma glucose level, finger capillary blood and gingival crevicular blood glucose level in chronic periodontitis patients

To assess the association between Obesity, its Determinants and Periodontal disease in adult patients visiting Dental Clinics of SGT University, Gurgaon

Association between chronic periodontitis and oral health related quality of life in Indian adults

Comparative efficacy of coconut oil pulling therapy versus three conventional mouth rinses on dental plaque and gingival health: A Clinico-Microbiological study

Thesis- MDS OF ORAL MEDICINE AND RADIOLOGY

Dr Suma- A newer method of risk assessment for early inconspicuous malignant areas in oral potentially malignant diseases, through quantified reflected light by a novel optical tool.

Dr Lavina- Evaluation of prescription writing skill of dental students and professionals working in dental teaching institute

Dr Sheena- Evaluation of gustatory changes in OSMF Patients

Dr Jyoti- To assess the efficacy of ultrasonotherapy in treatment of temporomandibular disorder cases as assessed by electromyography

Dr Shalini- Evaluation of genotoxic effects of X-rays on Buccal mucosa post panoramic digital radiography

Thesis- MDS Department of Oral Pathology

A study to estimate the levels of serum IgG and IgM in workers of paint factory – Dr Jitendra

Mucin Histochemistry In Different Grades of Oral Squamous Cell Carcinoma - Dr Sachin

Thesis- MDS Department of Prosthodontics

A Comparative evaluation of Periodontal parameters and crestal bone levels as influenced by different crown & bridge materials (PFM & ZIRCONIA) - An In vivo Study.

Extraction socket regeneration: A comparative evaluation of physiologically healed bone vs. grafted bone in terms of bone quality, width and implant stability

Thesis- MDS Department of Prosthodontics

A Finite Element Analysis to study the stress distribution of distal implants in an All-on four situation in atrophic maxilla as affected by the tilt of the implants and varying cantilever lengths. Dr. Anju

A Comparative evaluation of Shade variance in ceramic Restoration as effected by the substructure Material using Spectra photo meter An in vitro study Dr. Sapna

To evaluation and compare the tensile and shear bond strength of hard and soft denture relining materials bonded to conventional heat cured denture base resin and microwave cured denture base. Dr. Priyadarshini

A Comparative evaluation of implant stability, Crestal bone levels and papillary height in immediate implants with two different loading protocols in esthetic zone of mouth an in vivo study. . Dr. Priyanka

Comparative evaluation of fit and flexural strength of internal hexed screw retained metal framework on TMA supported by 5 implants, when casted in one piece followed by sectioning and welding using different methods- an in vitro study . Dr. Tajender

Evaluation of crestal bone level and implant stability quotient in immediately placed dental implants with and without L prf membrane application Dr. Loveleen

Comparative evaluation of the shear bond strength of autopolymerising reline resin (chair side hard reline resin) bonded to 3 different denture base resins (conventional heat polymerized acrylic resin, thermoplastic acrylic resin and thermoplastic polyamide resin) - an in-vitro study” Dr. Vikas

Thesis- MDS Department of Pedodontics

Dr. Shreya	To evaluate Minimum Inhibitory Concentration of Propolis against E.Faecalis and its Efficacy in Various Combinations with Zinc Oxide And Calcium Hydroxide as a root canal filling material.
Dr. Jyotika	Comparitive evaluation of dental caries prevelance by caries assessment spectrum and treatment (CAST) criteria, WHO criteria 2013 and International Caries Detection And Assessment system(ICDASII) IN 12 year old children in Gurgaon.
Dr Payal	Evaluation of oral health status in autistic children and its comparison with their unaffected siblings.
